PRINTING THE PAST:
INNOVATIVE TECHNOLOGY IN ARCHAEOLOGY
AT FLORIDA STATE UNIVERSITY

DIRAC SCIENCE LIBRARY
OCTOBER 11, 4-6 PM

Join us for the opening reception of Printing the Past: Innovative Technology in Archaeology, an exhibit demonstrating ways that 3D technology is furthering archaeological study. Showcased items will include 3D printed artifacts and a 3D topographical map from FSU's archaeological digs. The exhibition team will be present to discuss these materials and the technology behind them. The exhibit will remain on display from Oct. 11 - Nov. 22.
