CLA2110  Debates About the Past: Greek Civilization, History, and Culture  (3)  Dr. Michael Furman
This course is an introduction to different aspects of Greek, especially Athenian, culture, society, history and literature from the archaic age (8th-6th centuries BCE) through the classical era (5th-4th centuries BCE) and beyond. We shall touch on subjects like Greek democracy, daily life, religion, and drama, but also gain some familiarity with some masterpieces of Greek literature. Our goal is to understand the Greeks through their words and the views of modern scholars, which students will encounter in their assigned texts, translations of primary sources, and through lectures. Students will also sharpen their oral competency skills through participation in debates in a variety of roles.

CLT2049  Medical Terminology  (3)  Staff
About 85 percent of all English vocabulary derives from Latin and Greek. Not only does modern scientific nomenclature derive from Latin and Greek elements, but the ancient languages continue to be the source from which new words are formed. Since the meanings of the words in Latin and Greek are fixed, medical terminology, based on these words, is also stable in meaning. By learning how to break down any medical term into its composing elements (prefix, word root, and suffix), you will acquire the necessary skills to analyze and learn technical vocabulary, for your future career in medicine and/or its related sciences.
